

16 – 19 JUNE 2020

3rd SEERC Conference Vienna 2020
Cooperation • Sustainability • Future

Sponsorship Options

***Conference for power system
expertise for the South East European
Council of CIGRE (SEERC)***

Connecting 16 Countries from Italy to Georgia

Overview

On June 16th – 19th 2020, the Austrian National Committee of CIGRE and the OVE (Österreichischer Verband für Elektrotechnik) is hosting the biannual conference of the South East European Regional Council (SEERC) of CIGRE. The conference will take place in Austria's capital Vienna and will act as a meeting point for experts of this Region in the vast field of electric power systems and economics. The main goal of the conference is to share knowledge and experience for future power systems in the SEERC Region.

CIGRE is a global community committed to the collaborative development and sharing of power system expertise. The community features thousands of professionals from over 90 countries and 1250 member organisations, including some of the world's leading experts. CIGRE operates the world's foremost knowledge programme, spanning 16 domains of work encompassing all the core areas of the power system. Across these domains 250+ Working Groups draw and build on practical expertise to solve existing and future challenges facing the power system.

SEERC (South-East European Regional Council of CIGRE) is a Region of CIGRE, a collaboration between CIGRE members within the CIGRE structure. The Region of SEERC comprises **16 member countries** with a population of more than **270 million people** and has a considerable potential in the power engineering sector. The close collaboration of South East European countries within SEERC offers excellent

possibilities for development of the future power network and market. The Austrian National Committee has the chairmanship of SEERC until 2020, with its end at the SEERC Conference in Vienna.

During the Conference, experts from the Region will present the **newest developments and experiences** in the SEERC Region in three concurrent Parallel Sessions.

One of the highlights is the possibility to **present and show your company to the participants in an exhibition** at the Conference. An appropriate booth is already included in the Platinum Sponsorship package.

The Conference is finished with an **optional technical site visit of the Run of River Power Plant Greifenstein at the Danube** (Verbund AG) on the 19th of June. In the evening of the 17th of June the official Conference Dinner at a traditional Austrian Restaurant will take place.

According to the last SEERC Conference in Kyiv, approximately **300 people from 17 countries** are expected to join the SEERC Conference in Vienna. This gives your company a chance to present itself to a broad audience.

The official language of the conference is English.
